

CANEXEL®

The Authentic

CANEXEL®

The Authentic

Here, it's CanExel.®

Siding: Cream / SmartSide® Trim: White

In the countryside or the suburbs, it protects, enhances and improves your home. People have chosen CanExel® Prefinished Siding for more than 30 years for beauty, durability and peace of mind. The one. The only. CanExel.

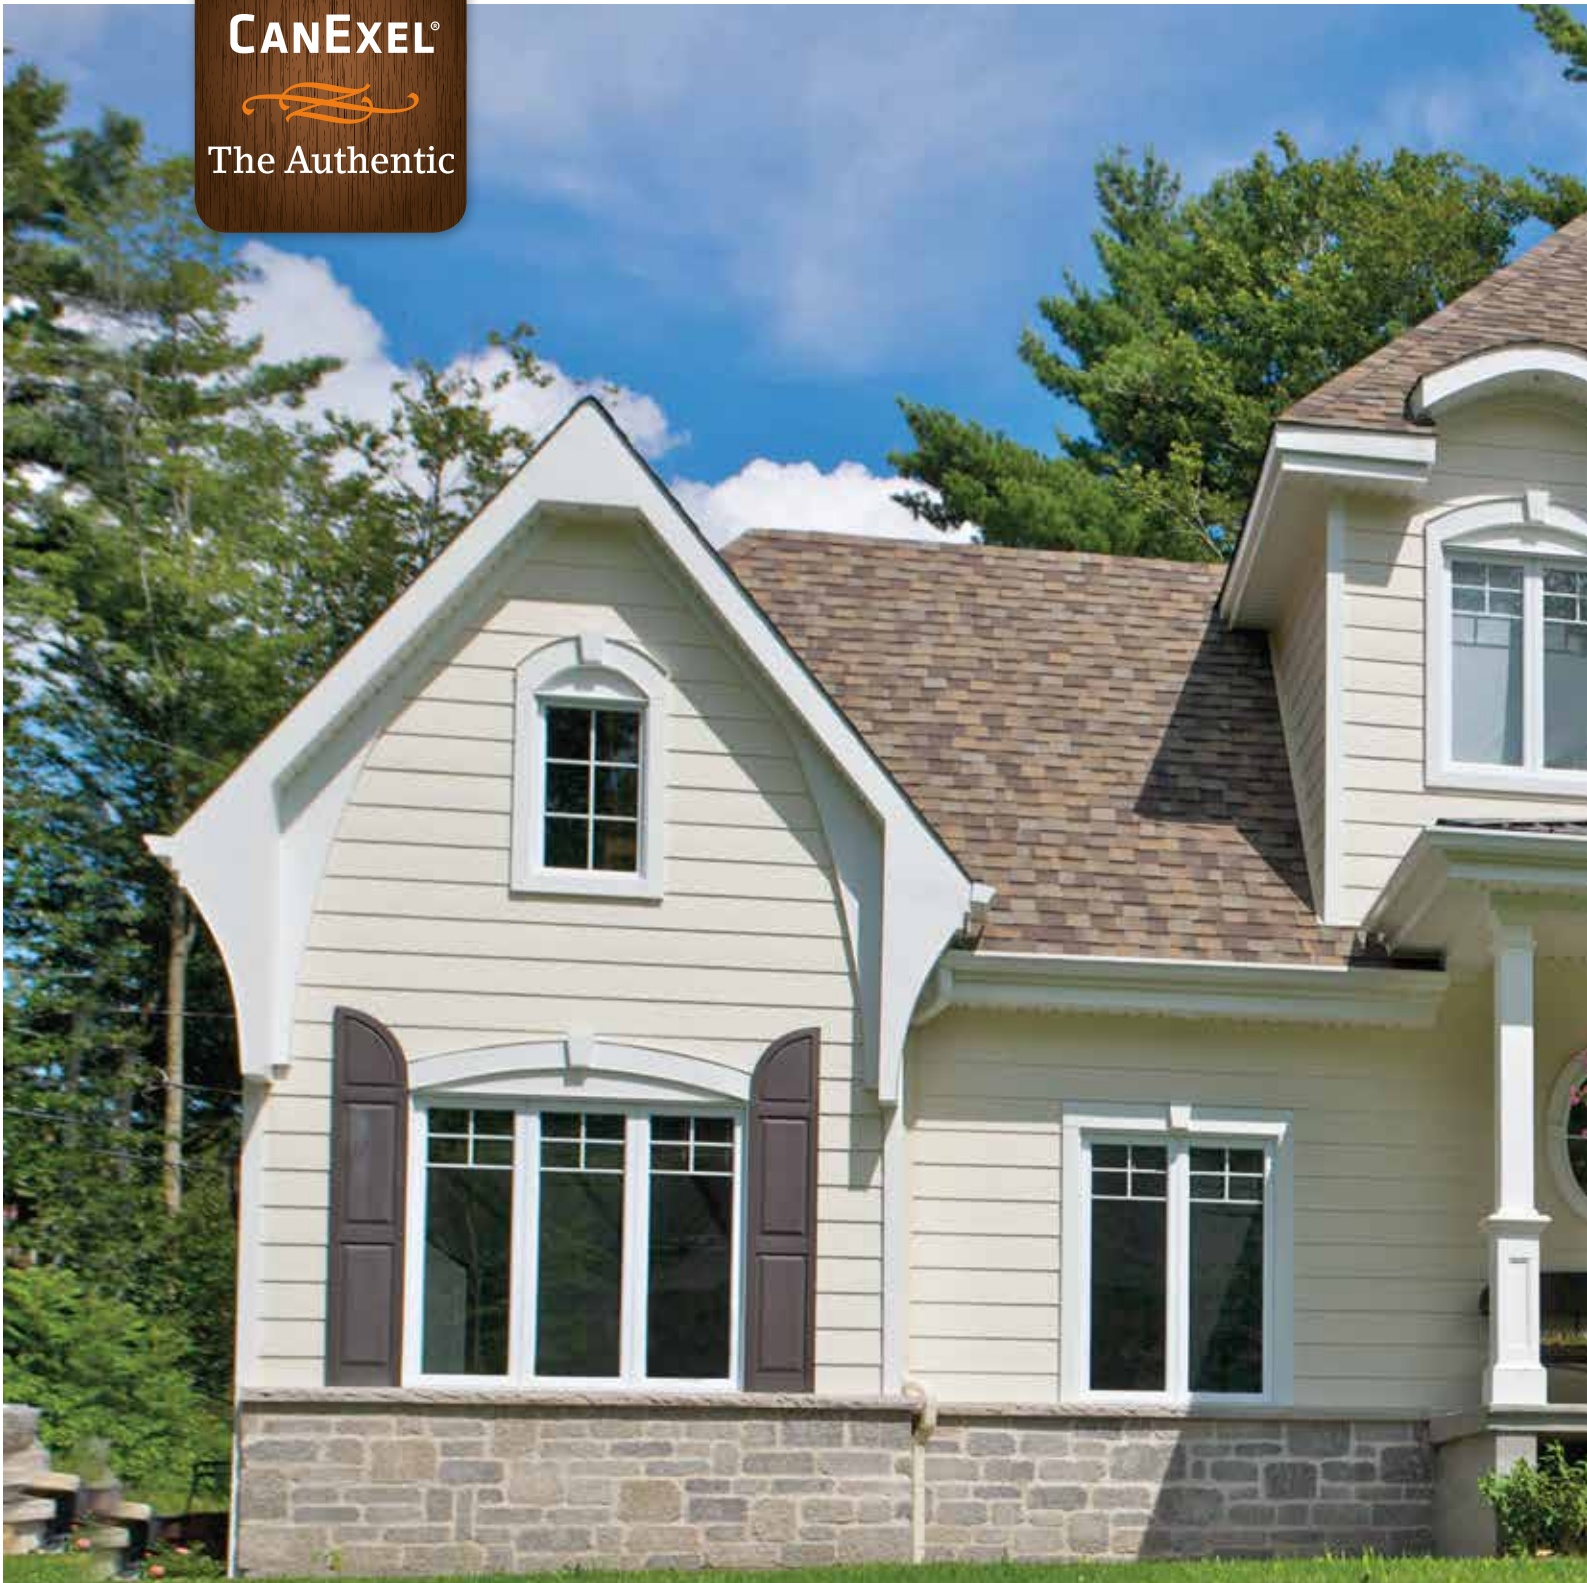

CanExel Prefinished Siding draws its inspiration from nature. It turns your house into a home - a place that is a reflection of you. It blends harmoniously with your environment and integrates with virtually every architectural style from traditional to modern. Its essence is the authenticity to make your home unlike any other.

A place you want to come home to.

CANEXEL®

The Authentic

CanExel®
Authentic. Durable.

CanExel® Prefinished Siding is produced from wood fiber, resin and wax fused together under pressure. This engineered wood siding is highly stable, as well as highly resistant to weather. It helps optimize our forests' yield by making the most of harvested wood. Finally, CanExel siding is finished in the plant, resulting in durable, low maintenance products with all the beauty and durability of wood. In short, it does more with less...naturally.

CANEXEL®

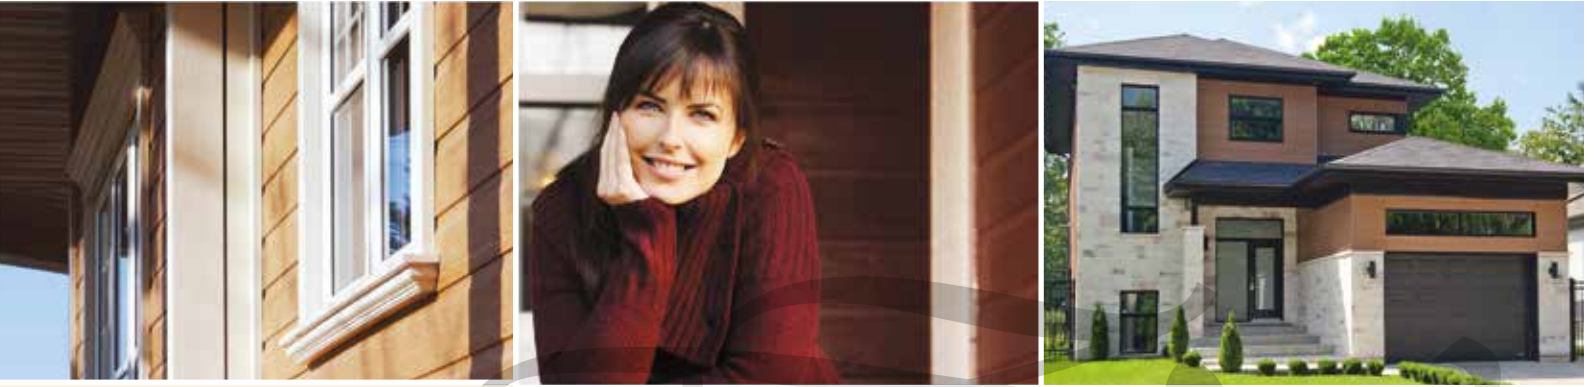

The Authentic

Siding: White / SmartSide® Trim: White

CanExel® Ridgewood D-5™ Authenticity. European-Style.

CanExel Ridgewood D-5 Lap Siding has the authentic look and warm appeal of Dutch lap siding. Its 12-inch wide planks are distinguished by a central groove that gives the appearance of two 5-inch planks and shadow lines that accentuate the texture and finish colour.

- Deeply textured wood-grain appearance
- 19 colours
- Self-aligning system for easy installation
- Hidden nail assembly provides a clean appearance
- Standard 12-foot long planks

CANEXEL®

The Authentic

Siding: Cream / SmartSide® Trim: White

CanExel® Ced'R-Vue™ Authentic. Traditional.

CanExel® Ced'R-Vue™ Lap Siding delivers the authentic beauty and durability of cedar without any of the drawbacks. Planks are moulded in 9-inch widths creating the look of a traditional assembly. CanExel's Ced'R-Vue lap siding delivers the elegance of cedar with its natural weather resistance, without the constant maintenance.

- Deeply textured wood-grain appearance
- 19 colours
- Self-aligning system for easy installation
- Hidden nail assembly provides a clean appearance
- Standard 12-foot long planks

CANEXEL®

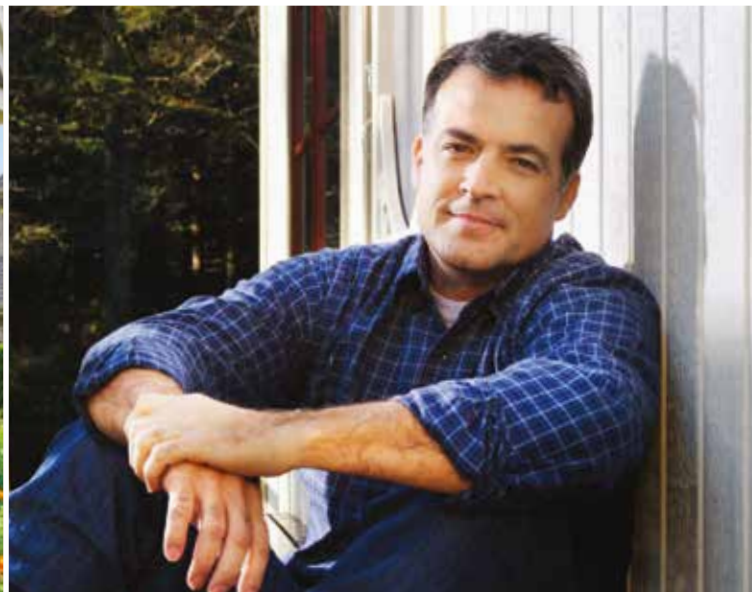

The Authentic

Siding: Almond / SmartSide® Trim: Almond

CanExel® Ultra Plank™
Classic Authenticity.

CanExel® Ultra Plank™ Lap Siding combines authenticity and style. This versatile product can be installed vertically or diagonally. Its deeply grooved 12-inch wide planks create the effect of two $4\frac{5}{8}$ -inch wide planks, for a traditional or contemporary look.

- Deeply textured wood-grain appearance
- 19 colours
- Interlocking self-aligning system for easy installation
- Hidden nail assembly provides a clean appearance
- Standard 12-foot long planks

CANEXEL®

The Authentic

CanExel® Authentic Quality.

CanExel siding products are subjected to a continuous quality control process, from forest to finish. Rigorous testing ensures that each product meets the highest standards of quality.

Advanced Baked-On Finish

The finish on CanExel siding consists of five coats of baked-on paint and a sealer providing increased resistance to cracking, splitting, warping, splintering and buckling of the substrate.

“7-climate” Testing

CanExel siding has been subjected to outdoor testing in seven different climates throughout North America. It has been shown to withstand the intense cold of the Canadian north, the tropical humidity of Florida, the scorching heat of the Arizona desert, the salty air of the Nova Scotia seacoast and the winds that sweep the Saskatchewan prairies.

UV Resistance

In every climate zone, CanExel siding is subjected to UV resistance tests using 45° tilt walls that triple the damaging effects of the sun to which 90° walls would normally be exposed. In every instance, CanExel products have withstood the most extreme conditions without damage to the substrate.

5/15/25-Year Limited Warranty

All CanExel siding products carry a 25-Year Limited Warranty* against cracking, deflection and hail damage, a 15-Year Limited Warranty* on the finish as well as a 5-Year, 100% labour and replacement Limited Warranty.*

The CanExel brand is the standard to which other products in its category are measured, making it the trusted solution for giving your home an authentic look for years to come.

Authentic Colours

CanExel® offers a range of colours to meet your personal style, whether it's nature inspired, bold or classic design. Our colours lend themselves to an extensive range of architectural styles to create a dramatic effect or to easily integrate with your environment.

CanExel siding products can be used with a selection of high-quality aluminum accessories in corresponding colours. Look for accessories specifically marked for use with CanExel finishes including corner posts, drip caps, drip edges, belt lines, starter strips, J trims and joint moldings.
